

Amulet Ballistic Barrier

Amulet is a hidden ballistic barrier system that is designed to physically protect life from a full spectrum of gun-fire as well as blast fragmentation. Amulet ballistic barrier system not only absorbs bullets and fragmentation, but the system also designed that the bullet will not dislodge from the hose product, even under continuous assault. A new layer of physical protection is now available to mitigate loss of life and injury should the unthinkable happen.

Amulet can be installed in the following and much more:

- Furniture during manufacture
- Podiums
- Wall
- Floors
- Workstations or desk
- Hospitals
- Retrofit into furniture
- Doors
- Ceilings
- Markerboards
- Safe room
- Critical infrastructure
