

- 80% of all home burglaries use a door or window to access a home.
- We use high-strength steel mesh screens and aluminum frames to create a barrier that is virtually impenetrable.
- We install security screens for windows, front doors, back doors, French doors, sliding patio doors, patio enclosures and even doggie doors. We can do any shape, size or any color.
- These security screens are your first line of defense against an intruder or storm.

- Recommended by law enforcement
- Will not take away from the aesthetic appearance of the home or building
- Retains the airflow and the views
- Add value to your home
- Each screen has an easy-to-use ADA compliant egress latch
- Reduces solar heat, increase window efficiency and insulation value
- Keeps the bugs outside
- Color options
- Egress screens
- Made in USA

Our screens are so secure that you can take a 2×4, accelerate it to 150 mph, and shoot it like a dart at the security screens and it will bounce off with no damage to the screen.

- The security screens can protect your family during a storm
- Clear view
- Add value to your home
- The last screen you will ever buy
- Resistance to corrosion
